Sri Sri Madhavadeva International Auditorium
Srimanta Sankaradeva Kalakshetra
Guwahati, Assam, India

About the Conference

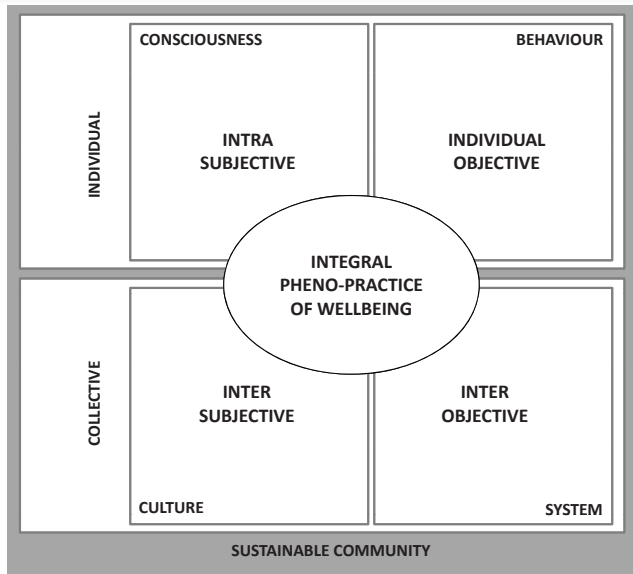

..rather than striving to arrive at the perfect understanding as to what makes us miserable it would be a welcome change to investigate what it would take for us to be unconditionally happy.....

Within a lifespan, from infancy to old age, every individual would thrive and flourish if availability of a comprehensive bouquet of care giving services is ensured. The world today is at the crossroads of technology and fulfilled life. Indicative trends demand multidisciplinary, inter-sectoral convergence to address every aspect of positive living, be it physical, social, mental or spiritual.

The conference aims to arrive at a structured framework for expediting such convergence. This would enable exploration of various pathways for manifesting wellbeing throughout the human experience and arrive at the wellbeing model of living. Facilitating the growth of resilient and sustainable communities is the long term goal aspired for.

Expected Outcomes

Based on the outcomes of the scientific sessions of the conference, it is envisaged to create pathways through awareness, advocacy and psychosocial interventions to support the sustainable development goals across age groups at individual as well as in the community level. This will help to put theory to practice, understand the gaps, develop tools and design framework for intervention programmes in the field, thereby enhancing quality of life of the individual at the micro and macro level.

Focal Theme

Wellbeing: Lifespan Perspectives & Practices towards Sustainable Communities

Please visit our website www.mindindia.org

Call for Papers & E-Posters

Thematic research papers, both empirical and theoretical on any of the sub themes or related areas shall be entertained. The abstract should be of 300 - 350 words. On acceptance of the abstract, full text of the paper in soft copy to be sent to the organizing secretary. Selected papers will be published with ISBN number and will be available in the website. For E-Poster Presentations, participants are requested to provide Power Point Presentation which will be displayed audio visually.
